Introduction - Fizz Flight Status and Fizz Traveller 3

Fizz Flight Status is used in conjunction with Fizz Traveller 3 to help you plan all your travel. Fizz Flight Status allows you to track your flights in real time, check gate and terminal information and see any delays quickly and with all the information you need.

In order to use Fizz Flight Status, you will need to have purchased Fizz Traveller 3. Fizz Traveller 3 is an all new way to organize and keep track of all your travel needs. All your favorite features from Fizz Traveller 2.x are there, but we have added many more and enhanced the user interface to make your whole experience easier and more enriching. You will find that Fizz Traveller becomes an indispensable tool for all your Travel planning, and also for your everyday life. Fully featured alarms mean you won't need another application to wake you up and with the ability to see both the days and weeks weather for where you live on your home screen in a layout that suits you; you will be using Fizz Traveller every day!

Welcome to Fizz Traveller 3

Whether you travel alone or with others, make room for one more. Fizz Traveller 3 is the perfect travelling companion. Full multilingual support for English, French, German, Spanish, and Italian. Support for Dutch, Simple Chinese, Russian and other languages will be coming soon.

New features for version 3 are in italics.

- Support is provided for over 58,000 cities worldwide
- Track the time in any of the supported cities from around the world.
- Set alarms in your time zone or any time zone for any city.
- *Make use of the timers and stopwatches, with recordable lap times*
- *Add events to your Outlook Calendar*
- Understand who's in daylight and who's in darkness with the real-time, world daylight map.
- *See moon phase information including graphical representation*
- *Get weather forecasts for today, 48 hours or 7 days ahead, for any city out of the 58,000 supported worldwide. Now you can also see current conditions for each of your favourite cities.*
- *See weather maps, radar maps and satellite maps for any of your favorite cities. (radar only supported for the US)*
- *Choose a custom webcam for all of your cities that you can update whenever you like.*
- See likely Airport Delays caused by the weather for all major airports
- See international dial codes and sunset/sunrise times
- *View and make your own packing lists or choose one of the built in templates*
- *Make schedules and detailed trip itineraries with support for adding your schedule to Outlook*
- *Plan your meetings when everyone anywhere in the world will be in the office with our easy to use graphical meeting planner, even add your appointment to your Outlook calendar*
- Do all your currency conversions with fully updated currencies from around the world.
- Convert all the most common units of measurements and also clothes and shoe sizes from around the world
- Configure your interface with customizable skins and themes
- *Flight statistics for flights around the world supplied by Flightstats. Get arrival and departure details including any delays and gate information (a subscription is required for this feature).*
- *See the time and weather from the home screen of your phone, with our tabbed home screen plug-in*
- *Dialcodes and Airport codes for cities worldwide*

NB. City lookup and weather forecasts require your device to have an active Internet connection, but you can use Active Sync or the Windows mobile device centre and get your data without a data plan on your device.

Installing Fizz Flight Status and Fizz Traveller 3

Fizz Flight Status is installed as a part of Fizz Traveller 3. Fizz Traveller 3 supports Window Mobile 2005 and 2006 with all variants of screen size and resolution. If you have problems with your device, then contact support@fizzsoftware.com for help.

To install, download the Fizz Traveller 3 zip file and unzip on your PC. With your device connected to your PC via Active Sync or the Windows Mobile Device Center on Windows Vista do the following:-

Double Click on setup.exe

Follow the on-screen installer dialogs.

Check your device and install either to phone or storage card

If you prefer using .cab file to install, or if you have a Apple Mac, you can download the .cab file from our website.

See the product Page and follow the link for documentation and .cab files on that page.

Once installed, you can use the Fizz Traveller product FREE for 3 days and you can make 10 requests with Fizz Flight Status, after which you will need to activate both products to continue usage.

Upgrading from a Previous Version of Fizz Traveller

When you upgrade to Fizz Traveller 3, all information from earlier versions will be lost, Fizz Traveller 2 and Fizz Traveller 3 can be installed together with the exception of the home screen plugin.

If you are using the Fizz Traveller 2 homescreen plugin, please switch this off and reboot the device to remove the version from memory before installing Fizz Traveller 3.

License Agreement

Please read and accept the license agreement before completing the installation of Fizz Traveller 3. If you install using the .cab file, then you are also agreeing to the terms and conditions of the License agreement.

Additional Weather disclaimer

ALL WEATHER DATA IS PROVIDED ON AN "AS IS," "AS AVAILABLE" BASIS. FIZZ SOFTWARE LTD. USING CUSTOM WEATHER DISCLAIMS ALL WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTIES OF ACCURACY, COMPLETENESS, CURRENTNESS, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

Launching Fizz Flight Status and Fizz Traveller 3

Once installed, Fizz Traveller 3 will be available in the Programs list.

Select the **Fizz Traveller 3** icon from the Programs list

You can change the language **Fizz Traveller 3** runs in by using the Settings Screen.

Activating Fizz Flight Status and Fizz Traveller 3

Fizz Traveller 3 will function for 3 days before you are required to enter a valid Activation code. You may register either by selecting Activation from the Now section or wait until after 3 days in which case the only available option will be the Activation screen.

To register, simply enter the **Activation code** provided when you purchased the product and click Activate. You may also need to enter your email address.

You will need a valid internet connection (or be connected to your PC via Active Sync) to complete the product activation. Once complete, a large green tick will appear, telling you that your product is activated.

If you wish to use the **Fizz Flight Status** application, you will need to purchase a subscription in order to use the service. Do this in the same way that you purchased Fizz Traveller (ie. Via our website or Handango) and Activate the subscription in the same way, from the Fizz Traveller Activation screen.

If you change your device or perform a hard reset, you will need to de-activate the software on your old device and then re-activate your software on the new one. The process is simple:-

1. Logon to your Fizz Software Online account at www.fizzsoftware.com/myaccount
2. If you do not have your login details, you can have them sent to you by using the lost password link. The email address here will be the one used when you registered your product. If you have changed your email address since your purchase, email support@fizzsoftware.com , make sure you tell them the email address you originally used.
3. Once you have logged onto your account, choose deactivate.
4. You can now install Fizz Traveller 3 on your new device and then choose Activate, you can use the same activation number, this is listed in your account details.

You can purchase Fizz Traveller from our own Website at www.fizzsoftware.com and see our online store. Alternatively, you can purchase from one of our partner stores, if you downloaded a trial from one of our partner stores, please purchase the product from them directly.

Travel Information

To use Fizz Flight Status, go to the Travel Information section of the product and tap or select Flights.

Flights

To use the Fizz Flight Status program, either pick a previous request from the top of the screen or enter new details below. First choose your airline, and then enter your flight number, then the date. Once entered, press 'Action' to perform the flight lookup. Your flight information will be displayed. On Pocket PC, drag your finger from left to right to see the arrival information and back again to go back to departures. On Smartphones, use the navigation keys to move between the two screens. If the flight is a multi-segment flight – press action to see each segment.
